Biostar-NLS Veritas - 3d: Bio-resonance or NLS-technology aim at obtaining information about the state of your health using computer and special programs. The data about an objective state of body tissues, cells, chromosomes and even hormones are being transmitted in real-time and instantly decoded in the form of specific diagnoses and recommendations. It can be used for:

Health support in case of acute and chronic conditions
Prevention
Boost peak performance
Balance psychological stress
Enhance the general wellness
