Price: **Free**

Low Vision Occupational Therapy in Florida - Injury Assistance Network: Having a low vision hampers the physical flexibility of individuals and migh cause severe accidents. In some instances, low-vision occupational therapy is necessary for restoring short or long-range vision cycles. Visual exercises like eccentric viewing, visual tracking, and visual scanning reduce vision-related problems through adaptive techniques or equipment use. Organizations like Injury Assistance Network connect affected individuals with professional occupational therapists offering care to cure low vision.
