Stainless Steel Diamond Plate Rub Rail: Stainless steel diamond plate rub rails protect walls from impact and abrasion caused by moving carts, equipment, furniture, and pedestrian traffic. Protek stainless steel diamond plate rub rail consists of strips of stainless steel diamond plate sheet that mount to the wall with adhesive or mechanical fasteners. Outside corners are also available for wrapping corners, which allows the rub strips to be installed in a continuous fashion. Rub rails are supplied in standard lengths and cut to fit in the field by installers, which means no prior field measuring is required. Choose from several standard options below or inquire about custom options that meet your specific project requirements.

Features:

??Manufactured from type 304 mill finish stainless steel diamond plate

??Butt seams

??Outside corners available for a continuous installation

??Installed with adhesive or mechanical fasteners, pre-drilled holes available

??Standard and custom heights available

??Other stainless steel grades and finishes available
