**\$99.00**

Address: **17 N. Circle Drive, Springfield**

Price: **Free**

Bend furniture grade PVC Pipe: Are you needing to bend furniture grade PVC pipe to make you special project a reality. You've probably see others use hot water, sand, springs, torches or the expensive boxes. Well, the PVC Bendit is perhaps what you've been looking for. Most furniture grade projects use smaller diameter 1"- 2" pipe and have a lot of bends. Some of the expensive fittings can be eliminated if you could make a sweeping bend or curve. Now you can. PVC Bendits fit inside 1/2" PVC Pipe. They have a heating element inserted into flexible 3/8" flexible steel pipe that can make fairly sharp bends. We offer them in 6 lengths but you'll probably need the 18" or perhaps the 3' or 6' length. If not we also have 9', 10' and 20' PVC Bendits. They operate using 120 volts and 10 or less amps and heat up to approximately 950 degrees. As you know bending PVC Pipe is part art and part science so you'll need to practice. If the PVC Bendit isn't the tool you need simply return it within 30 days for a full refund. We want you to be satisfied with your purchase. The PVC Bendits are made in Colorado and usually ship the same weeday as they are ordered. See our website: <https://pvcbendit.com/> and order yours today.
