Buy and sell concerts, Sports and Theater Tickets:

[Ticketmaster charges sellers a fee][1] when they resell tickets on their platform. The exact fee varies depending on the event, location, and ticket price but typically ranges from 10% to 15% of the ticket's resale price. This fee is deducted from the total amount you earn from the sale, so if you sell a ticket for \$100, you might receive between \$85 to \$90 after the fee is applied.

In addition to the seller's fee, buyers also pay a service fee, which is added to the ticket's price. This means that while Ticketmaster provides a convenient and secure platform for reselling tickets, both buyers and sellers should be aware of these fees when pricing or purchasing tickets.
