Selfie Video Recording Participant: Job description

Please Note: This is a paid voluntary study.

LXT is an emerging leader in AI training data to power intelligent technology for global organizations. In partnership with an international network of contributors, LXT collects and annotates data across multiple modalities with the speed, scale and agility required by the enterprise.

We are seeking participants for a video recording project involving a series of short selfie videos taken at countertop height. The project aims to capture participants walking towards a device in both a normal and a spoof manner. Each participant will be required to record themselves at four different distances for each scenario, following specific guidelines.

Key responsibilities

Record 15 seconds selfie videos at countertop height using an iPad or iPhone.

Perform actions in both a normal (live) manner and a spoof manner.
