Address: **823 N. Thornton Ave Orlando, FL 32803, Orlando, Orlando**

Price: **Free**

Low Vision Occupational Therapy - Injury Assistance Network: Having a low vision hampers the physical flexibility of individuals and might cause severe accidents. In some instances, low-vision occupational therapy is necessary for restoring short or long-range vision cycles. Visual exercises like eccentric viewing, visual tracking, and visual scanning reduce vision-related problems through adaptive techniques or equipment use.
