Address: **Business Bay-Dubai, United Arab Emirates, Arab**

Price: **Check with seller**

Used Furniture Buyers in Dubai: How to Sell Used Furniture: 5 Rules to Help You Make Money Decluttering

The decluttering trend seems to be turning into a timeless classic: everyone from space planners to stylists advises getting rid of old things you don't use or items that no longer bring you joy. Well, why not?

Rule number one: tidy up

Every old cross or table has a story – and everyone knows it. Used Furniture Buyers in Dubai are aware that they will receive furniture with scratches or chipped paint, but no one is ready to be understanding about mold or dust.

"Take everything unnecessary out of cabinets and drawers, and check if anything is hiding between the sofa cushions. Wipe furniture made of wood, glass, or metal with a damp cloth, and vacuum soft furniture.

Rule number two: take good photos

"Good" is the key word. Of course, you don't have to give the stool an artistic photo shoot - you just need to photograph it in a way that a potential buyer immediately understands what the thing looks like.

1. Take the photo against a plain background that won't distract. (Even a well-cleaned closet will look sloppy if it's in a dirty room.)
