Address: **17 N. Circle Drive, Colorado Springs**

Price: **295.00 \$**

PVC Pipe Bender for Artists electricians spa pool plumbers: Do you need to repair that pool or spa but can't find the correct pipe fittings? Now you can use the PVC Bendit to heat and bend that PVC pipe how and where it is needed. How about pulling wire through pipe with a lot of fittings... you get hung up. Eliminate the fittings and heat and bend the PVC Pipe the way you need it. PVC Bendits fit entirely inside 1/2" and larger Schedule 40 and 3/4" Schedule 80 PVC Pipe. Insulating on the outside of the pipe speeds up the heating process as you insert the PVC Bendit inside the pipe. A few turns of the pipe as it gets hot helps prevent blistering. The heating element is inside flexible steel conduit and are available in lengths of 18", 3', 6', 9', 10' and 20' lengths so you get the length of bend you need. 120 volts at 10 or less amps and you are set. While you know your Codes, the PVC Bendit meets or exceeds other methods of heating and bending PVC pipe that you may have used.

100 percent satisfaction guaranteed. Visit us to learn more information at: <https://pvcbendit.com/> and order yours today.
