Price: **934.92 \$**

Wool Fiber Futon: The Perfect Blend of Comfort and Sustainability: Experience unmatched comfort and eco-friendly design with the Villandry 8-Inch Wool Fiber Futon by Bio Sleep Concepts. Crafted from 100% natural cotton and wool fibers, this futon offers a healthier, chemical-free, and hypoallergenic sleeping environment. The wool core provides exceptional airflow regulation, ensuring you stay comfortable throughout the night, regardless of the season. Its design helps to relieve pressure points on the neck, shoulders, back, and hips, promoting restful sleep and relaxation.

Built for durability, the futon features an 8-inch wool core encased in a heavy outer shell with double-stitched boxed seams. Both sides are equally supportive, allowing you to flip the futon for even wear. To maintain its quality and extend its lifespan, periodic flipping, rotating, and airing out are recommended.

If you're looking for a natural, sustainable sleep solution that prioritizes comfort and longevity, this futon is the perfect choice. Visit <https://biosleepconcept.com/product/8-inch-wool-fiber-futon/> today for more information.
